

The new **MANTA™ Gate Latch** presents a great balance of elegance and functionality. This breakthrough design offers the best of all worlds. Attractive and easy to use handles, key locks providing accessibility from the front or back of a gate, and a powerful positive-locking magnetic system. Made from glass-filled nylon material for low maintenance, strength and durability. Latch is completely reversible for right hand or left hand gate openings. Key lockable from inside or outside. Can be keyed-alike to match most household doors. Latch will fit gate frames ranging from 1-1/2" to 5". Keeper fits gate posts of 1-1/2" and up. Will work on gates with distance between the gate post and gate upright of 1/2" to 2". Warranted to be free of defects in material and workmanship by manufacturer.

**OFFERED IN WHITE OR BLACK**

## . **Residential Security and Style**

LokkLatch® DELUXE is a more compact version of the LokkLatch® PRO-SL, which has been installed on thousands of privacy and security gates throughout the world.

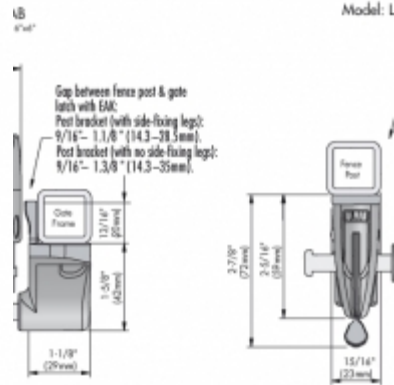

Offering superior security and durability thanks to its tough, 100% rust-free construction, LokkLatch® DELUXE is a great solution for a wide variety of fencing situations. The one model is suitable for installation on metal, wood and vinyl gates.

Its 6-pin locks can also be re-keyed to most household doors or keyed-alike for maximum convenience.

With the optional External Access Kit, it can be easily locked and operated from both sides of a gate.

It has also been tested to over 200,000 cycles, so you can be sure it's going to last.

**OFFERED IN WHITE OR BLACK**

## • **General Purpose Gate Latch**

For use on general-purpose gates around homes and gardens, the key-lockable LokkLatch is hard to beat.

The new Series 2 model is even better than the original, with a reshaped latch body and striker housing making a more stylish and ergonomic product.

LokkLatch Series 2 also offers a higher degree of versatility, with up to 1/2" (13mm) of vertical adjustment available any time during or after installation to ensure reliable operation.

With adaptor plates included in the kit, the one model suits all square post gate and fencing materials as well as left or right hinged gates for easy installation.

An optional External Access Kit allows the main latch to be operated from outside the fence. (Note that locking the Push-Button does not lock the main latch inside the fence).

**OFFERED IN BLACK or WHITE**

## Adjustable Hinge

As with most quality hardware designed for use with aluminum, vinyl, wrought iron, and ornamental steel gates, these hinges connect to both the gate and the hinge post on two adjacent sides of the posts/ verticals for added strength. These hinges are designed for use on residential gates with 4" and 5" gate profiles. Hinges are equipped with adjustable pins to fit most openings. Hinges have powder coated finish for a long lasting performance.

- Sold By The Pair
- Adjustable
- Used with 4" or 5" Gate Profiles
- Size: 3-1/2"(H) x 3-1/2"(W) x 3-1/4"(D)
- Includes Screws For Mounting

## Standard Post Latch

Latches are also powder coated for a long lasting finish. Use these latches on practically any type of gate or door, i.e. wood, aluminum, ornamental iron, and steel. The face of the gate and face of the latch post must be flush for proper fit. Latch will 'self-latch' if used in conjunction with a self-closing hinge or closer. Mounted at the correct height, these latches will meet the national BOCA pool code.

- Sold Individually
- Self-Latching Capable
- Powder Coated
- Available in black, white
- Return Spring for Reversible Mounting
- Includes Stainless Steel Screws For Mounting
- Strike Flange: 1.75" (H) x 1.25" (W) x 3.5" (D)
- Latch Flange: 2.5" (W) x 5.5" (H) x 1.5" (D)
- 0.63" Strike Bar

## **SMALL PROFILE ADJUSTABLE HINGE**

These hinges are designed for use on residential gates with 2" and 3" gate profiles. Hinges are equipped with adjustable pins to fit most openings. Hinges have powder coated finish for a long lasting performance.

**OFFERED IN BLACK (SS)**

**OFFERED IN WHITE (SS)**

## Stainless Steel Drop Rod

Drop rods, or cane bolts are powder coated for a long lasting finish. Use these drop rods on practically any type of gate or door, i.e. wood, aluminum, ornamental iron, and steel. Drop rods are used on double driveway-type gates to secure the two gates together in the center where they meet. Pair one of our drop rods with any of our latches for a secure fit. Drop rods have small tabs cast in them that allow one to open the gate and conveniently swivel the drop into an 'hold-open' position.
